# Cancer Prevention and Early Detection Overview

Background

Socio-Ecological framework

Strategy overview

Priority populations

Grantee strategy summary

**COLORADO**  
Department of Public  
Health & Environment

# Background

**COLORADO**  
Department of Public  
Health & Environment

# Purpose

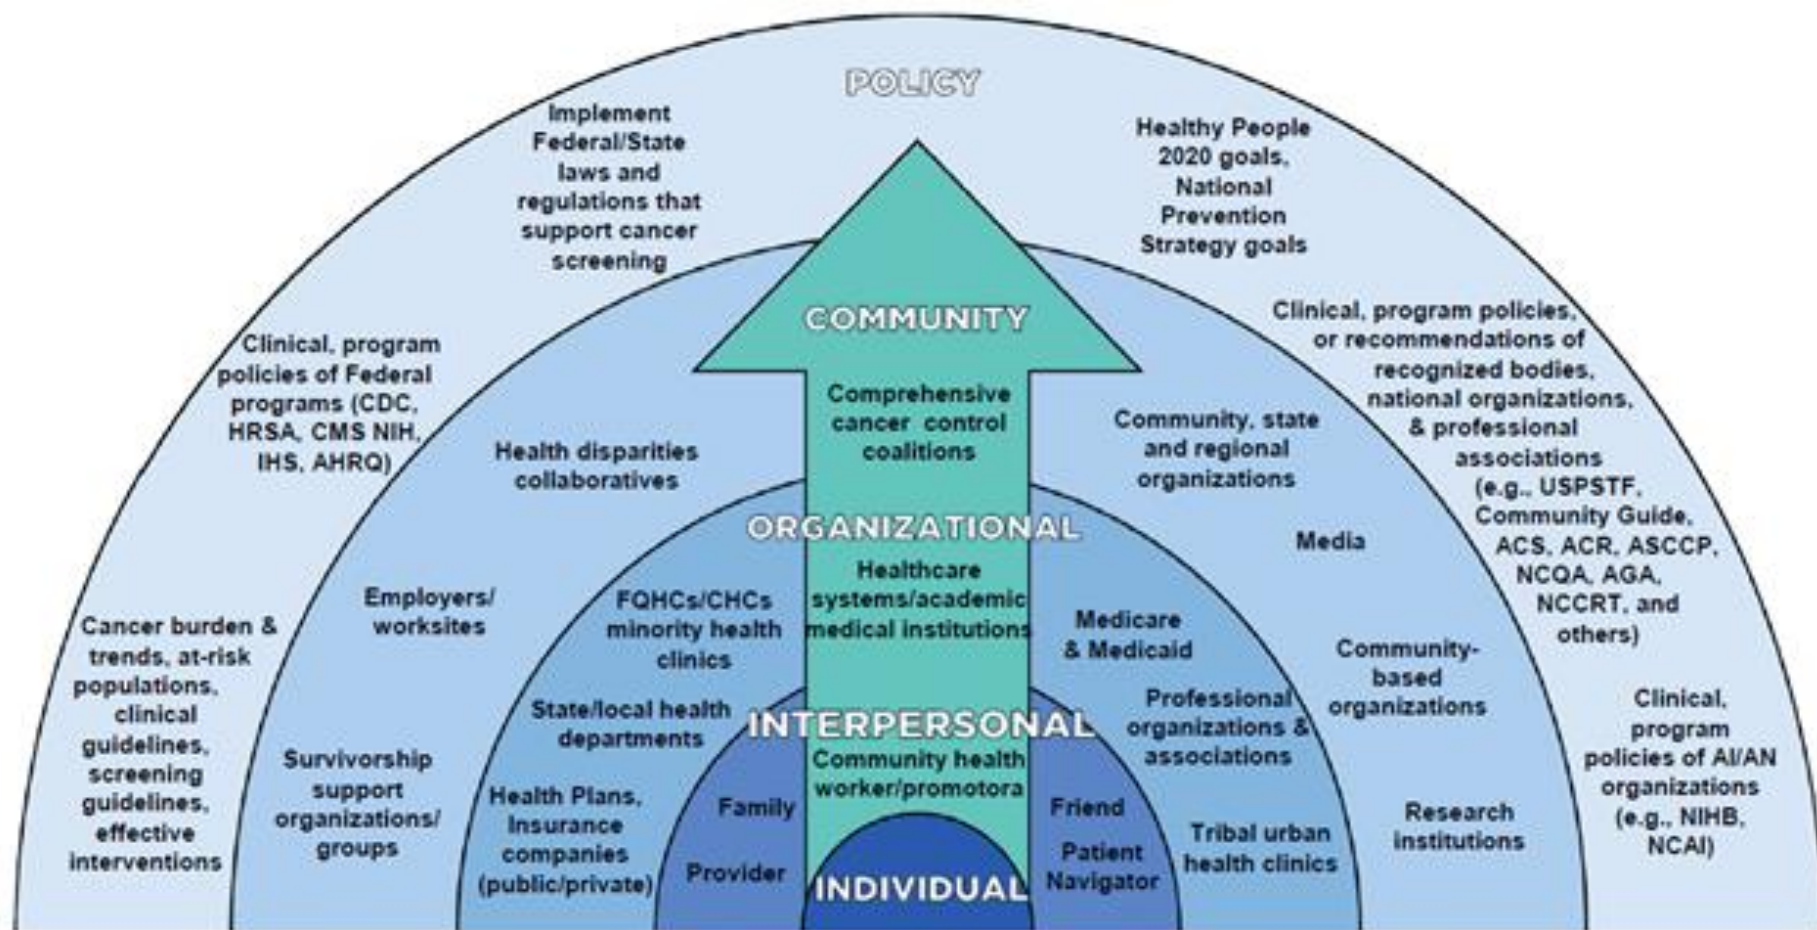

- Reduce breast, cervical and colorectal cancer morbidity and mortality rates and increase equity in screening, identification and treatment of these cancers.
- Apply a more collaborative and coordinated approach to cancer screening.
- Fund applicants to implement strategies to address cancer prevention and early detection at one or more levels of the socio-ecological framework.

# Socio-Ecological Framework

**COLORADO**  
Department of Public  
Health & Environment

# Socio-Ecological Framework

\*Some groups may fit within multiple levels of this model.

# Strategy Overview

**COLORADO**  
Department of Public  
Health & Environment

# Strategies

Initial Strategy: Assessment and Planning (required)

Additional Strategies:(limitations apply, not required)

Socio-Ecological Framework	Strategy	Cancer Addressed
Community Level	Targeted Community Outreach	Colorectal, breast, cervical
Organizational Level	Clinic Quality Improvement	Colorectal, breast, cervical
Interpersonal Level	Patient/Health Navigation	Breast, cervical (women only)
Individual Level	Clinical Services	Breast, cervical (women only)

# Priority Populations

**COLORADO**  
Department of Public  
Health & Environment

# Population Characteristics Prioritized

Populations less likely to be screened for cancer are a priority for this work. These characteristics vary by cancer type.

**COLORADO**  
Department of Public  
Health & Environment

## Breast

### Women...

- who do not have health insurance
- who smoke tobacco
- who do not have a high school diploma
- living under 100% federal poverty
- living between 100 and 138% federal poverty
- living in rural and frontier counties\*
- living between 138 and 250% federal poverty

## Cervical

### Women...

- who do not have health insurance
- living under 100% federal poverty
- who do not have a high school diploma
- living in rural and frontier counties\*
- living between 138 and 250% federal poverty
- who are Hispanic
- who smoke tobacco

## Colorectal

### Individuals...

- who do not have health insurance
- who do not have a high school diploma
- who smoke tobacco
- aged 50 to 54
- who are Hispanic
- living under 100% federal poverty
- living between 138 and 250% federal poverty
- living in rural and frontier counties\*

# Expected Results of Activities

# Expected Results of Activities

- Increased number of individuals screened for breast, cervical and colorectal cancer.
- Increased number of quality breast, cervical and colorectal cancer screenings provided within priority populations.
